Delta EV Charger RFID Card

<b>Component type</b>	Accessories/spare parts for E-Mobility
<b>Range</b>	DC Wallbox
<b>Model</b>	N/A
<b>Product status</b>	Existing

Durable, reliable, and commercial grade, the Delta range of DC chargers are strong and robust, ideal for fast charging in urban and rural environments. Air-cooled, steel cased with an IP55/IK10 rating, the Delta DC Charger range is capable in most weather and operating conditions. The Delta DC chargers also include an in-built modem; this enables the charger to connect to all third-party cloud-based platforms via its OCPP communication protocol. A truly robust EV charger for Australia and New Zealand's intense climate. Offering split load options, available with CCS2-CCS2 or CCS2-CHAdeMO plug combinations, the Delta DC Chargers will suit all current EV types.
